

Spectra Labs - Kitsap, LLC (Poulsbo) received samples for Cape George Colony Club on Monday, December 30, 2024 at 11:55 am. Unless otherwise noted, all samples were received in good condition and were tested in accordance with the laboratory's quality control procedures. A summary of the samples received are outlined below.

<b>Sample No.</b>	<b>Description</b>	<b>Location</b>	<b>Sampled</b>
247392-01	Cape George Colony Club	Res Tap	12/30/2024 11:00

This report package contains laboratory sample results and any attachments listed below. If you have any questions please call (360) 779-5141 or email us at [www.spectra-lab.com](http://www.spectra-lab.com).

DOH #	Analyte	Results	Qual.	Units	SDRL	PQL	Trigger	MCL	Exceed MCL	Method	Analyst	Analysis Date
-------	---------	---------	-------	-------	------	-----	---------	-----	------------	--------	---------	---------------

### NOTES:

- \*Confirmation** Include the original lab number, sample number, and collection date of original sample in either lab or sampler comments section.
- SDRL:** (State Detection Reporting Limit) The minimum reportable detection of an analyte as established by the department.
- Trigger Level:** DOH drinking water response level. Systems with compounds detected at concentrations in excess of this level may be required to take additional samples or monitor more frequently. Please contact your DOH drinking water regional office for further information.
- MCL:** (Maximum Contaminant Level) If the contaminant amount exceeds the MCL, please contact your regional DOH office to determine follow-up actions.
- NA:** (Not Analyzed) In the results column, indicates this compound was not included in the current analysis.
- ND:** (Not Detected) In the results column, indicates this compound was analyzed and not detected at a level greater than or equal to the SDRL.
- < (0.00x):** The compound was not detected in the sample at or above the concentration indicated (usually the lab method reporting limit).
- mg/L:** milligrams per liter or parts per million.
- NTU:** nephelometric turbidity units (a measure of water clarity).
- µmhos/cm:** Micro ohms per centimeter (a measure of the ability of the water to conduct electricity). One micro ohm per centimeter is equivalent to one micro siemen per centimeter (uS/cm).
- :** No existing trigger or MCL value.
- 1:** Secondary MCL (Established for aesthetic purposes, not health based).
